An Extension by- <http://codeinnovers.com>

Hide Price

Hide Price extension allows admin to select the customer groups to which admin wants to hide the product prices and "Add To Cart button". The customer can not see the price of the product and add to cart button if the customer come in the group that has been selected by the admin. Admin can also hide product price and remove the "Add To Cart" button and replace that button with a custom inquiry button on the product page, category page and compare page etc.

Hide Price allow you to hide prices storefront based on different conditions configured by admin. It allows to hide prices per product, per customer groups and category. Hide Price lets admin hide prices for a specific product for particular customer groups or guest visitors.

If you are using Hide Price help you perfectly setup rules to accomplish the following things.

- 1. Hiding product prices for selected customer groups.**
- 2. Hiding product price for selected categories.**
- 3. Display call for price with configured option like showing a from or text message.**
- 4. Showing inquiry form for your customer to fill.**
- 5. Hide Price for product, for B2B sites or any sites with special price for customer.**

Best Features Of Hide Price:

- Admin can enable or disable the extension from back-end.
- Ability to showing inquiry form for your customer to fill.
- Admin can hide product price and “Add To Cart ” button.
- Ability to hide product price for selected categories by the admin.
- Ability to hide price for specific product selected customer groups by the admin.
- The customer see the price of the product and add to cart button if the customer does not come in the group that has been selected by the admin.
